SPRINT 14 PELLETS

GRAIN CONCENTRATE FOR HORSES

GUARANTEED ANALYSIS

| | | |
|------------------------------|--------------------|-----------|
| Crude Protein..... | Minimum | 14.00% |
| Lysine..... | Minimum | 0.50% |
| Methionine | Minimum | 0.20% |
| Crude Fat..... | Minimum | 6.00% |
| Crude Fiber..... | Maximum | 15.00% |
| Calcium..... | Minimum | 0.80% |
| Calcium..... | Maximum | 1.20% |
| Phosphorus..... | Minimum | 0.60% |
| Magnesium..... | Minimum | 0.30% |
| Copper..... | Minimum | 60 ppm |
| Selenium..... | Minimum | 0.8 ppm |
| Zinc..... | Minimum | 160 ppm |
| Vitamin A..... | Minimum IU/Lb..... | 6,000 |
| Vitamin D ₃ | Minimum IU/Lb..... | 600 |
| Vitamin E..... | Minimum IU/Lb..... | 100 |
| Biotin..... | Minimum | 0.5 mg/lb |

INGREDIENTS

Grain products, plant protein products, roughage products, processed grain by-products, forage products, molasses products, vegetable oil, partially hydrogenated vegetable fat (preserved with mixed tocopherols), monocalcium phosphate, dicalcium phosphate, calcium carbonate, magnesium oxide, magnesium amino acid chelate, zinc amino acid chelate, ferrous sulfate, iron amino acid chelate, manganese sulfate, manganese amino acid chelate, copper sulfate, copper amino acid chelate, ethylenediamine dihydriodide, cobalt sulfate, sodium selenite, selenium yeast, brewer's dried yeast, vitamin A supplement, vitamin D₃ supplement, d-alpha tocopherol acetate (source of vitamin E), menadione sodium bisulfite complex, riboflavin supplement, calcium pantothenate, niacin, vitamin B₁₂ supplement, thiamine hydrochloride, biotin, folic acid, pyridoxine hydrochloride, mineral oil, diatomaceous earth, yeast culture, natural and artificial feed flavors.

IMPORTANT: See reverse side of tag for feeding directions.

Manufactured By
BURKMANN FEEDS

PRODUCT NUMBER 413

FEEDING DIRECTIONS

This is a fully fortified pelleted feed. It is not necessary to add additional protein, vitamin, or mineral supplements if this feed is fed as directed. All Burkmann feeds should be fed with liberal quantities of good quality hay and/or pasture and free choice salt.

FOALS AND WEANLINGS

This product is not recommended for feeding nursing foals or weanlings up to 14 months of age. We recommend the use of **PROFORMANCE 16 TEXTURED** for these horses.

YEARLINGS AND TWO-YEAR OLDS

To be fed at a rate of 0.75-1.50% of body weight per day. For most light horses this amounts to 8-12 pounds per day. Horses should have feed intake adjusted up or down depending on body condition, desired rate of growth and forage quality and availability.

BARREN AND PREGNANT MARES

Feed barren and early pregnant mares 8-10 lb. per day if a poor quality forage is being fed. If a good quality forage is available feed intake can be decreased. Late pregnant mares should be fed 8-10 lbs. per day of this feed plus liberal quantities of good quality forage. LACTATING mares may be fed 8-12 lbs. per day of this feed in addition to liberal quantities of good hay and/or pasture depending on body condition and milk production. If poor quality fescue forage is being used it is recommended that **PROFORMANCE 16 TEXTURED** be used.

PERFORMANCE HORSES

Feed 0.25 - 1.50% of their body weight per day (8 - 14 lb per day for most light horses). Feed intake should be adjusted according to work intensity, body condition, and forage quality and availability.
